999 18<sup>th</sup> Street, Suite 500, 8 WM-C  
Denver, Colorado 80220-2405

Gentlemen:

The Department of Energy and EG&G are presently responding to and modifying standard operating procedures as per our meeting of November 12, 1990. At this time, we are requesting an extension for submittal of these documents as follows:

- Volume 1 - Field Operations, Volume 2 - Groundwater, Volume 3 - Geotechnical, Standard Operating Procedure Addendums for 903 Pad Phase II RI/FS and Air Standard Operating Procedures.

The above mentioned documents will be submitted on December 21, 1990.

In addition, Volume 4 - Surface Water, Volume 5 - Ecology, and Standard Operating Procedure Addendums for the 881 Hillside Phase III RI/FS will be submitted on January 25, 1990.

Also, per our meeting of November 16, 1990, the Quality Assurance Project Plan will be submitted on December 21, 1990.

These extension dates will allow us to incorporate your comments and modify documents to meet the intent of the IAG.

Please feel free to contact me or have your staff contact Thomas T. Olsen of my staff at 966-2762, if you have further questions.

Sincerely,

  
Robert M. Nelson, Jr.  
Manager
